As befits the home town of Picasso it is also a cultural city: you will find not only the famous Picasso gallery but other modern art galleries, theatre, cinema, opera, classical music and much more.

Master Class

Español para la Vida

Master Class

Master Class

This programme is designed especially for people who, in their retirement, now have the time to enjoy travelling and the pleasure of learning new things - languages, traditions, customs and cultures.

The course combines language learning with social and cultural activities designed to help you to get to know not only the customs and traditions of Málaga and Andalucía but also your fellow course participants.

We have been running this programme successfully for 10 years. We have gained a lot of experience about the interests, needs (and even worries) of older people and are confident **that this language school does cater for your age group!**

Malaca Instituto

Founded over 30 years ago, Malaca Instituto is widely recognised to be one of the leading schools of Spanish.

It is situated in a residential area some 10 minutes' walk from Mediterranean beaches and 15 minutes' bus ride from Málaga city centre.

Approximately 3000 "students" of all ages and a variety of professions and backgrounds enrol each year. They come from all over the world for stays of anything from 2 weeks to a whole year !

Facilities

With outstanding study, living and leisure facilities all on one site, Malaca Instituto offers a very friendly, mini-campus environment.

The facilities include : 25 classrooms, self-access study centre, multi-media lab, cinema, residential accommodation, bar, restaurant, dance studio, terraces and swimming pool.

The convenience of having all these facilities on the one site is especially appreciated by our clients on Master Class.

Content, method and teachers

Malaca Instituto is a highly serious school that produces its own textbooks. Our Research & Development department is responsible for the creation of these books, other teaching materials and the associated training of our teachers.

The textbooks and materials vary according to the type of course, the target student and the course objectives.

In the case of **Master Class** we do not try to teach you the complete language with all its grammatical technicalities, but we concentrate on the essential words and phrases that will help you to begin to communicate (or communicate better) with the local people.

We teach you how to ask directions, how to introduce yourself, how to order that plate of succulent grilled prawns on the next table and how to communicate in many more everyday situations.

Our teachers all have substantial experience in teaching Spanish. Regular workshops and training sessions are organised to ensure that the teaching remains of the highest quality and is always lively and interesting.

Quality guarantees

Malaca Instituto is a renowned teaching centre that can boast the independent quality guarantees associated with being an Accredited Centre of the **Instituto Cervantes**, having passed the inspections of the University of Alcalá (**CEELE**) and **EAQUALS** and being a member of **IALC** and **OLE**.

These are your guarantees of our quality.
