

# Summer Activity Course for Young Adults

## Malaca Instituto

This is our classic Summer Course option for young adults aged 16-20. Malaca Instituto has been running this programme for over 10 years and it has proven very popular with a wide range of youngsters from many different countries and cultures.

An usual feature of the programme is that we guarantee that classes will be in the afternoon. Our experience shows that young people in a Mediterranean environment prefer this timetable.

As well as the 3 lessons per day in the afternoon there is a special activities programme of social, sporting and cultural activities which takes place each morning at a time that suits these students.

This is an ideal programme for the young adult looking for a fun and rewarding holiday with other like-minded youngsters from all over the world - they will absolutely love it!
